- To consider the Planning Applications below and any that arise before the meeting.

[2026/0248/FUL](#) Land At Cockmill Lane East Pennard. Erection of an agricultural building extension. (Retrospective).

Background: It was noted that in 2019 it was confirmed that that prior approval of the siting, design and external appearance for erecting two agricultural barns was not required on this site. (2019/2678/AGB) The Applicant built one large barn not the two barns referenced in application 2019/2678/AGB and was refused retrospective planning permission. (2024/1253/FUL)

The application has been resubmitted, and the applicant was asked to outline any material differences from the previously refused application, but stated that the application has not changed and they are using their right to resubmit after 12 months.

RESOLVED: To OBJECT to the application due to the design and appearance and impact on visual amenity. The Parish Council agreed that there was no agricultural justification for the large balcony which would create significant harm to the landscape due to its overbearing nature and prominent position.

Proposed: Cllr Noble, 2nd Cllr Hall. Approved. Cllr Sumner, Moulder, Wynn, Powell & Roberts Abstained.

2026/0329/TCA: Pilton House, Lower Street, Pilton. Poplar (T1) - Remove two small lower limbs growing into Copper Beech. Western red Cedar (T2) - Reduce by 1.2m. Hazel (T3) - Coppice back to hedge height (Reduce by 3.5m). Turkey Oak (T4) - Remove dead wood over road. NOTIFICATION ONLY

2026/0334/FUL: Land At 359384 & 140687, Lower Street, Pilton. Erection of a Self-Build Dwellinghouse
RESOLVED: To OBJECT to the application for the following reasons.

Design & Appearance. Impact on public visual amenity- It is a very large modern design close to more traditional dwellings and it is not in keeping with its surroundings. The development will dominate the landscape and will be visible from surrounding roads, bridleway & footpaths. The Scale & Nature of the building is not appropriate to its village setting.

The Character of this rural village will be damaged if this important green space is lost.

Loss of Trees: The site is home to an established orchard, a proportion of which will be lost with this development.

Loss of ecological habitats: Bats & Deer and other wildlife are frequently spotted on the site.

Flood Risk - The size of the built area and removal of the natural habitat, will contribute to excess water frequently experienced on the Lower Street.

Proposed: Cllr Moulder, 2nd Cllr Wynn. Approved -Unanimous.

2026/0330/TCA: Stonecrest, Weir Lane, Pilton. Lawson Cypress (T1 & T2) - Fell. NOTIFICATION ONLY

2026/02773/TCA: Worthy Farm, Worthy Lane, Pilton. T1-T6 - Ash - Fell. T7-T10 - Scots Pine - Fell.
NOTIFICATION ONLY

190. To receive information (Notification Only) from Glastonbury Festival;
- a. Representatives from Glastonbury Festival reported their intention to seek a minor variation in moving two pedestrian gates, B and C; It was noted that there will be no change to the entertainment licence but the proposals will move the fortress fence to the other side of Cockmill Lane to create more space within the boundary fence, to enhance public camping, reduce queueing and create a cleaner separation between public areas and production areas.
Cllr Hall asked for confirmation that there would be no changes to the vehicular access arrangements for Cockmill Lane. It was confirmed the arrangements for access to Cockmill Lane would be same as those in place for the 2025 Festival.
Cllr Woodhouse asked whether the new public camping would be provided with facilities, and it was confirmed that the camping area would cater for up to 12,200 people(relocated from other areas) and would have an appropriate number of toilets, hand washing facilities & food vendors, all covered by the existing licence.
 - b. It was reported that GFEL intend to seek planning permission to make some small changes to the pyramid stage to increase the stage area by 5m. It is unlikely that the changes would be made prior to the 2027 Festival.
191. **BROADBAND**
It was reported that Vodafone had agreed to install a 5G Booster in Pilton, however due to company reorganisation and a change of personnel, it is unclear whether this will go ahead. If it does not proceed then an alternative would be for the company which provides broadband to Worthy Farm to install a Wifi mast at the top of the village -this would be a private network and would only be viable if enough residents commit to a contract. It would only be effective within Pilton. More details would follow in due course.
192. **TRAINLINK**
- Cllr Sumner left the meeting and Cllr Woodhouse took over as Chairman.
Cllr Hall reported that over 1000 responses were received for the Trainlink Survey and Somerset Council has committed a £150,000 budget for a new trial bus service to Castle Cary station, however they would not commit to the route and which villages it would serve and are looking at a number of different starting points.
